## PROFESSIONAL SUMMARY

Motivated software developer and recent MCA graduate with hands-on experience building and deploying web applications using React.js, Django, Python, and MySQL. Completed a 4-month full stack internship and built 4 projects covering REST API development, JWT authentication, role-based access control, and database design. Strong problem-solving skills, comfortable working in Agile teams with Git, and eager to learn new technologies and contribute to a development team.

## EDUCATION

**Master of Computer Applications (MCA) | 2024 – 2026**
M.A.M. B-School, Tiruchirappalli, Affiliated to Anna University | CGPA: 8.30/10

**Bachelor of Science in Computer Science | 2021 – 2024**
Sadakathullah Appa College, Tirunelveli | CGPA: 7.05/10

## TECHNICAL SKILLS

**Languages:** Python, JavaScript, PHP, SQL
**Frontend:** React.js, React Hooks (useState, useEffect), HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Web Design
**Backend:** Django, Django REST Framework (DRF), Laravel, REST API Development, JWT Authentication and Authorization
**Databases:** MySQL, MongoDB, SQLite, Database Design, ORM
**Tools and Practices:** Git, GitHub, VS Code, Vercel Deployment, CRUD Operations, DBMS, SDLC, Agile/Scrum, Debugging
**Office Tools:** MS Word, MS Excel, MS PowerPoint

## INTERNSHIP EXPERIENCE

**Full Stack Developer Intern | VDart Academy | Jan 2026 – Apr 2026**

- Built 6+ responsive UI modules with React.js, HTML5, CSS3, and JavaScript, improving usability across desktop and mobile views.
- Developed and integrated 10+ REST API endpoints using Python, Django, and Django REST Framework for real-time frontend-backend data handling.
- Connected React.js components to Django backend services, reducing manual data-entry steps in core workflows.
- Managed MySQL and SQLite databases for application data storage and retrieval, maintaining data integrity across modules.
- Used Git version control for debugging and testing across an Agile team, contributing to on-time sprint delivery.

## PROJECTS

**Dynamic Timesheet Management System | React.js, Django, DRF, JWT, MySQL**

- Engineered a full-stack timesheet system supporting 3 user roles (Admin, HR/Staff, Employee) with JWT-based role access control.
- Built 8+ REST API endpoints with DRF for real-time attendance, timesheet, and reporting data flow to a React.js frontend.
- Designed MySQL schemas and CRUD modules handling employee, attendance, and timesheet records at scale.

**Smart Intern Management System | React.js, Django, DRF, JWT, SQLite**

- Built a full-stack platform managing intern profiles, attendance, and task records with JWT authentication.
- Designed REST APIs and an admin dashboard for intern data management, cutting manual record-tracking effort.
- Implemented CRUD operations across structured database tables, keeping the application maintainable and scalable.

**AI-Based Credit Card Transaction Security System | Python, Facial Recognition, Machine Learning, MySQL**

- Designed a facial-recognition verification module to approve or reject credit card transactions in real time, reducing fraudulent-access risk.
- Built matching logic comparing live capture against a secure MySQL database of registered cardholder data.

**Asset Management System | HTML5, CSS3, JavaScript, Laravel, MySQL**

- Developed a Laravel and MySQL system to track and categorize organizational assets by department and type.
- Built full CRUD modules (add/update/delete/view) improving asset record accessibility for admin users.

## CERTIFICATIONS

- Artificial Intelligence Fundamentals – IBM SkillsBuild
- Full Stack Development Internship – VDart Academy
- DevOps Decode: Hands-on Fundamentals – EXCELR
- State-Level Workshop on Roadmap to Web Development – SAC Script-24

## LANGUAGES

Tamil, English, Arabic
